

Data Centre Management

Services for agencies' data centres

CITEC manages data centre environments for the Queensland Government and also manages numerous agency data centres or Points of Presence (PoPs) within Queensland and around Australia.

This is a 24x7 service with rapid onsite technical response to meet agency requirements and maintain service availability.

Benefits

We have accumulated decades of experience operating, maintaining, sourcing, migrating, upgrading and decommissioning data centres and PoPs for Queensland Government agencies.

With established policies and procedures, we are aligned with industry best practice to ensure your data centre requirements are delivered efficiently and effectively.

As our partner agency you will be assured of:

- Professionalism and expertise
- Agreed expenditure for budgeting purposes

Prerequisites

To engage this service you will have a requirement for one or more data centres or PoPs or be seeking consulting services regarding an existing or planned facility.
